Denton Dene Wildlife Survey

Saturday 17th October 1:30 – 3:30

Meet at the path junction by the ponds in Denton Dene South, NE15 7HB, what3words ///dive.study.slices

Friends of Denton Dene and Natural History Society of Northumbria are teaming up to carry out a wildlife survey of the rather diminished wildlife ponds in Denton Dene. We'll be recording plant life, invertebrates and hopefully some amphibians on iNaturalist and building an evidence base to take to Newcastle City Council and Northumbrian Water to build a case for pond restoration works. We advise you to wear wellies or walking boots, long trousers and sleeves and waterproofs if you have them. Bring a flask or drink, we'll bring the biscuits!

Please note: *this is* ***not*** *a family fun event, although young people with an interest in nature are welcome to attend with a responsible adult.*
